Of New York Society Amazed At Charge

A REMARKABLE PAPER

Claims Wife, Former Society Pet, Is Morally Weak

Charges Frank Sturgis, Banker Clubman, With Undue Influence.

New York, March 11.—In submitting issues to the Supreme court in the divorce of Mrs. Aurel Batonyi against her husband, counsel for the defendant has asked that a jury consider a charge of conspiracy which is declared to be the most amazing ever revealed by the court records of the country. Frank Sturgis, banker, broker and secretary of the Jockey club, who lives with his wife at No. 11 East Fifty-first street, is made to bear the brunt of the sensational revelations.

The direct charge made that Mr. Sturgis has covertly and wrongfully secured control of the millions possessed by Frank Work, the aged father of Mrs. Burke-Roché-Batonyi, and has compelled the latter to yield to his wishes or accept the alternative of being left friendless and penniless when her father dies.

DEMOCRACY ON EVE OF NATIONAL VICTORY SAYS SECY. WOOLSON

Chicago, March 11.—"Democracy is on the eve of a national victory. Bryan will be the nominee. His principles are recognized as the need of the hour. The Republicans are over-confident by long unbroken success and are split in factions. That combined with a realization of the failure of their policies to give the country relief in a distressful day insures the election of Democratic candidates."

Urey Woodson of Owensboro, Ky., secretary of the Democratic national committee summarized the outlook for the national election and expressed the foregoing opinion when he paused between his labors of allotting floor space in the Denver convention hall and discussing special rates to delegates with railroad agents. He added:

"The only thing that may prevent Mr. Bryan from becoming our next president is a railroad accident. He

SENATE COMMITTEE FORMALLY REPORTS ON "BROWNSVILLE AFFRAY"

Washington, March 11.—After exhaustive inquiry of over a year, the military affairs committee of the Senate today formally reported on the "Brownsville affray." Three reports were submitted, one by Chairman Warren, on behalf of the committee, in which the Democratic members joined, and which, in the main, sustains the action of the President in

his efforts to get absolute control of the Work millions.

Not more astounding are the charges of the conspiracy and his sworn statement, that his wife, who, for two decades has been a pet of the Four Hundred, has become degraded in character on account of the influence wielded by the broker.

This information, according to Batonyi's statement, was obtained through confessions made to him by his wife after their marriage.

Immediately following this Batonyi charges that his wife is morally weak and strangely susceptible to the influence of Frank Sturgis.

The most astounding allegation of the entire document is the sworn statement of Batonyi that after they were married and had gone to live at Newport his wife confessed that she had been the mother of an illegitimate child. Facts will be laid before a jury in an effort to prove that Sturgis was the father. Batonyi says that the proposals that he and his wife separate were first made in 1905 when they were occupying apartments in the Buckingham Hotel, this city. He avers that when he learned the real object Sturgis had in view he ordered him to leave the hotel.

Later during Horse Show week in 1906, he asserts that he again met Sturgis and told him that he had learned so much concerning Mrs. Batonyi's past that he did not want to live with her longer.

Acting apparently under the advice of their lawyers, Mr. Frank Work, Mr. Batonyi and Mrs. Batonyi refused to discuss in any way the sensational charges brought before the public by Mr. Batonyi's legal procedure.

PLEAD NOT GUILTY

Bankers Arraigned in Federal Court Today, on Conspiracy Charge, Released on Heavy Bail.

New York, March 11.—Charles W. Morse and Alfred H. Curtis, vice president of the National Bank of North America, were jointly arraigned in Federal court today before Judge Hough under a joint indictment charging them with conspiracy to defraud and conspiracy to enter fraudulent entries. Both pleaded not guilty and Morse was held in \$30,000 bail, while \$10,000 was furnished by Curtis.

"The south will go as it always does—solid for Democracy. The night riders in my state, the prohibition throughout the south and the industrial discontent of the northern centers of population will not affect the 'solid south.'"

HOUSE

Passes Bill Changing City Government Forms

DEBATE WAXES WARM

Boards of Safety And Service Abolished Under Measure

Tribute Paid to Author of Bill By Democratic Leader

Columbus, March 11.—With votes to spare, with reasonable celerity and without the admission of a single amendment, Chairman Louis H. Paige of cities committee carried through the house yesterday the bill which bears his name and which, if accepted by the senate, will substitute the federal plan of government for the present board plan in every city and village in Ohio on January 1, 1910.

No amendment was offered to preserve the board feature. Representative Chamberlain of Dayton offered one to have the single director of public service provided by the bill made an elective instead of an appointive officer. This was negatived by 55 to 56. Without division the house rejected the only other material amendment, which was presented by Representative Trott of Knox, and which was sought to postpone until 1910 the civil service provisions of the measure which, as passed, are to go into effect June 1, 1908.

The vote, 68 to 29, by which the Paige bill was passed, makes a revolution in public sentiment since 1902, when, in special session called by Governor Nash, the board form of municipal government was perpetuated and made to apply uniformly throughout the state.

Yesterday 44 Democrats, 23 Republicans and one independent supported the bill. It was opposed by 7 Democrats and 22 Republicans.

As it goes to the senate, its main provisions are for the appointment by the mayor of a single director of public service and a single director of public safety, who, with the mayor, are to constitute a board of control.

The mayor appoints also the heads of sub-departments and may remove them and also the directors, and is authorized to send messages to the city council.

In addition to taking over the present duties of the service board, the service director is given charge of play grounds, garbage, the making of surveys and maps, and the construction of all public buildings, except such as are public to the department of safety.

In addition to control of the fire and police departments, the safety director has charge of charities and correction, and makes all contracts within his department. All contracts in either department over \$500 must be approved by the board of control, which is to prepare the annual budget to be transmitted by the mayor to council.

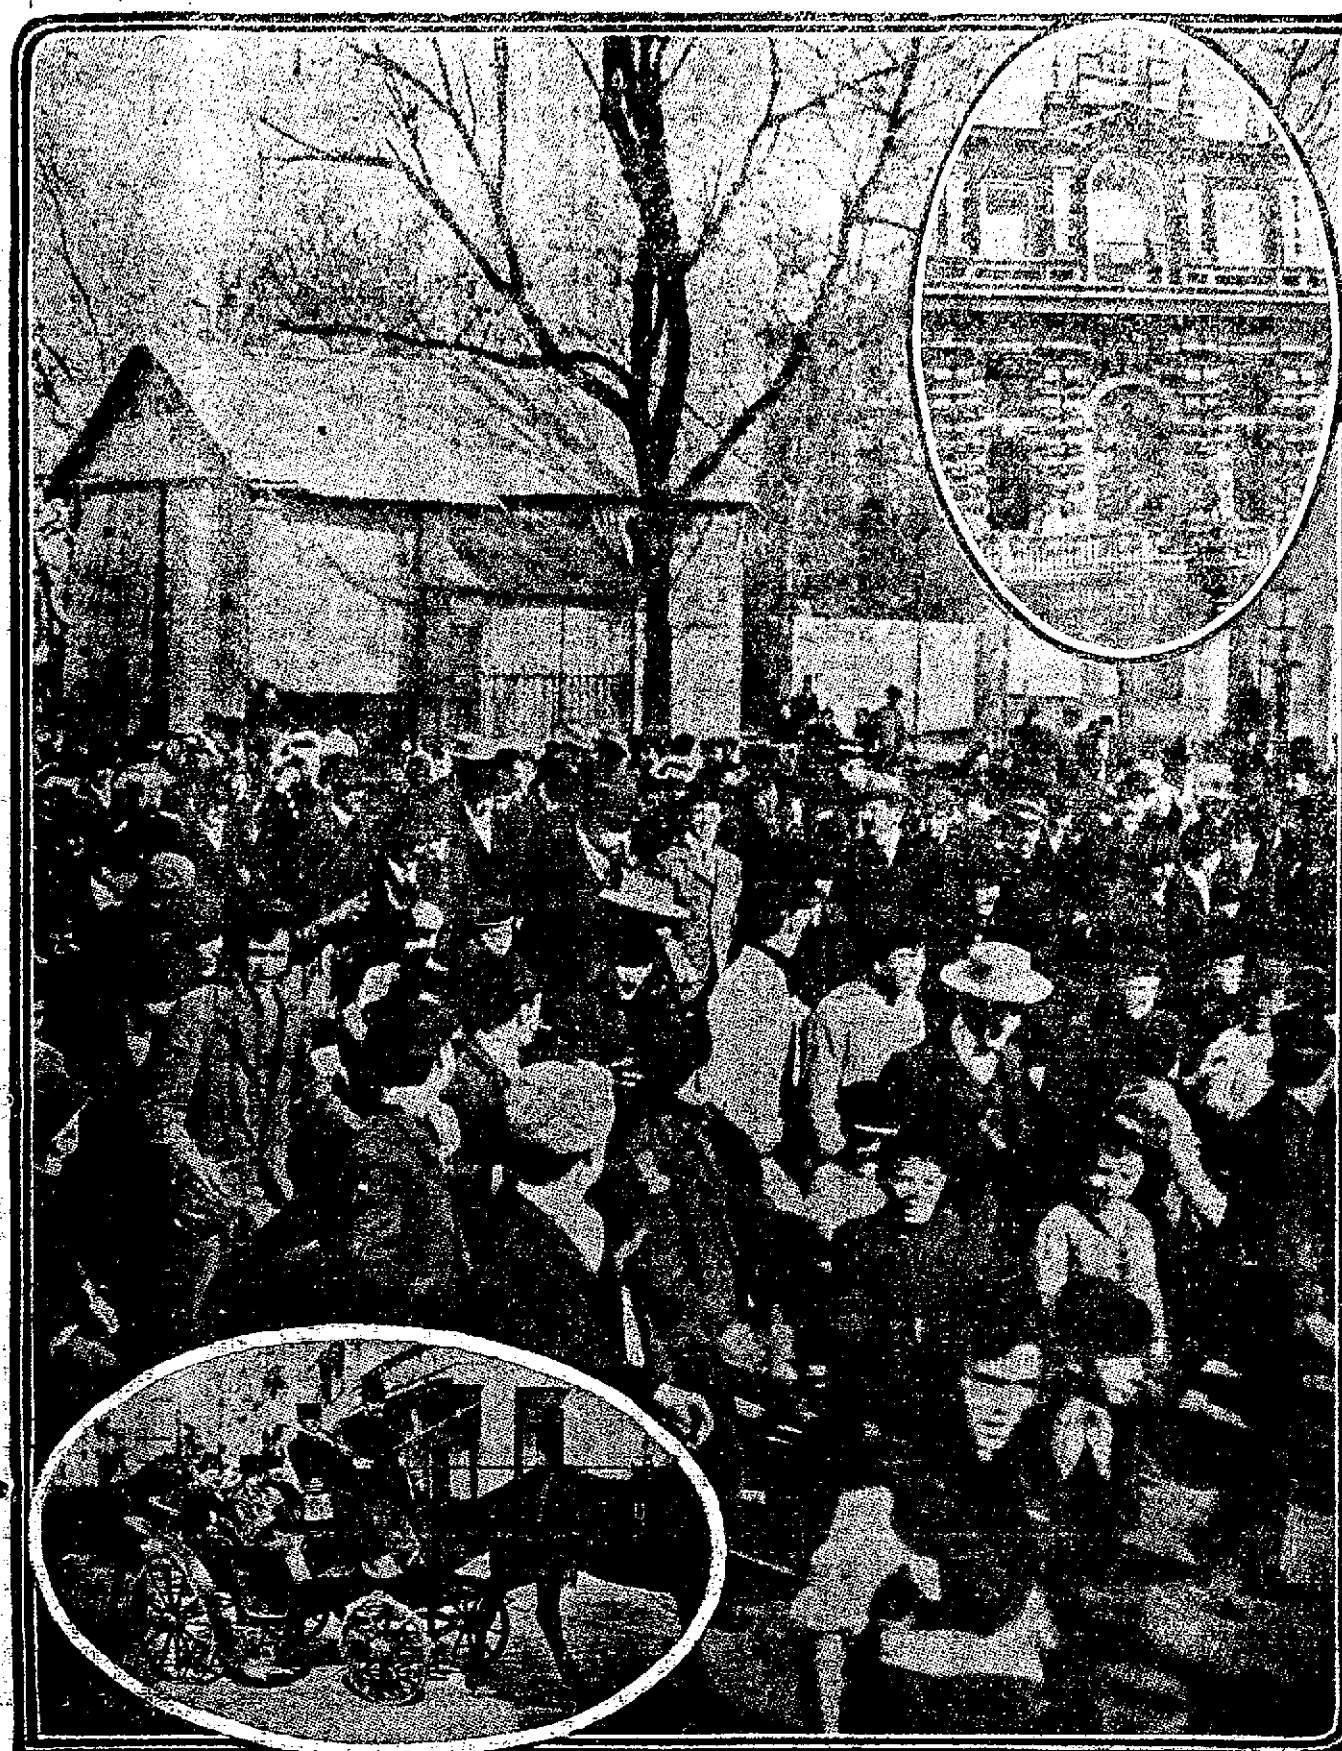

This portion of the bill is not to go into effect until after the next municipal election, which will be held in November, 1909. The elaborate civil service feature is effective June 1 of the present year. Under it three unsalaried civil service commissioners, who cannot hold other public positions unless it be in the schools or libraries, and are to serve three years, are to be appointed by the president of the city school board, the president of the sinking fund commissioners and the president of the city council.

The unclassified service which is exempt from merit system control includes elective officers, appointive officers subject to confirmation or names by a state or court officer, positions requiring professional or technical skill, teachers, election officers, department and division chiefs of police, fire, engineering, waterworks, street cleaning, health, workhouse, home of refuge, infirmary, hospital, public library, private secretaries, deputy auditor, deputy treasurer, unskilled laborers and appointees of the civil service commission.

All other positions are to be filled on recommendation of the civil service commission on examination by appointed.

TERRIBLY BURNED WHEN CLOTHING CAUGHT ON FIRE

Hazel Swaney May Meet Death From Injuries Received While at Work This Morning

Bottling Turpentine at Styron, Beggs Chemical Co. When Dress, Saturated With Inflammable Fluid, Caught Fire From Stove.

While at work in the bottling department of the Styron, Beggs Chemical company's warehouse on South Fourth street, Wednesday morning, Hazel Swaney, 29, whose dress was saturated with turpentine, catching fire.

Miss Swaney, with several other girls, was bottling turpentine and by the upsetting of a tray containing the fluid, the apron of the girl was saturated. In walking past the stove her apron was ignited and in an instant she was a living torch.

Jones was called and arriving promptly the girl was hurried to the Sanitarium, where on orders from Mr. Beggs physicians were called to attend her. A cab was also sent for the girl's mother to carry her to the bedside of the girl.

The father of the girl, Benjamin F. Swaney, is a fireman on the railroad. The fires in the building were ordered turned out by Mr. Beggs and the thoroughly frightened women were allowed to go to their homes, as they were too unnerve to be of further use. Most of the men were employed in the packing and shipping department in the rear end of the building, and knew nothing of the accident until the fire had been extinguished.

While it is not thought the Sanitarium that the girl inhaled any of the flames, and while her injuries may not prove fatal, yet she will probably be scarred for life.

An examination made at the Sanitarium by Dr. Barnes, shows that the upper portion of her body also her lower limbs, were slightly burned. The worst injuries, however, being about the face and arms. Her tongue is slightly blistered, but, physician does not think she is in any immediate danger.

HUSBAND

Held in Terror by Evelyn Who Fears For Her Life

PAPERS ARE SERVED

In Wife's Suit For Divorce But Contest Will Be Tame

Thaw Will Provide for Girl Who saved Him From Chair.

New York, March 11.—Harry Kendall Thaw, slayer of Stanford White, was today served at Matteawan Asylum with the initial papers in an action brought by Evelyn Nesbit Thaw, his wife, for the annulment of their marriage.

Thaw's insanity at the time the marriage was contracted will be assigned as the cause.

This sensational finish to the Thaw-White tragedy was announced by Dan O'Reilly, personal counsel for young Mrs. Thaw, at the Hotel Belmont following a conference with A. Russell Peabody, who is Thaw's personal counsel. Mr. Peabody, who had just returned from a visit to his client, confirmed the news, and added that his client was aware of the impending action, and had instructed him to prepare a defense to the suit. This does not mean, however, that a bitter legal fight will be waged by Thaw to retain his pretty wife, whose dramatic story in her husband's defense saved him from the electric chair. Nor does it mean that young Mrs. Thaw, after a quixotic display of heroism, has, with reckless abandon, burned her bridges behind her.

Everything has been arranged, Mrs. Thaw will sue and her husband will defend the action, but back of it all there is a definite understanding that the wife is to be provided for.

On all sides there was silence as to the price. That is to be an affair outside of law and the courts. No one will talk about it. A shrewd guesser, however, ventured a prediction that it would amount to about \$50,000 in cash and an annuity of \$7,000 or \$8,000 per year. Young Mrs. Thaw, will, of course, be permitted to marry again.

Mrs. Thaw herself will have to take the witness stand at the trial of her action, and then will come the anticlimax to the series of dramatic incidents which have marked the progress of the Thaw case. Where, on two historic occasions, the wife bared her soul in the tremendous effort to save her husband's life from the grasp of the law, she will now be seen swearing away the bonds that bind them together.

Her task completed, she will seek her discharge. And he will be there, too, under guard, though for he is stamped insane, and thereby hangs one of the stories that is being told of this wonderfully complex affair.

There have been stories of Thaw's attacks upon her in the rooms, on the Bridge of Sighs, in the waiting room just off the trial chamber and in the asylum. All of them have been denied, though evidence of the facts is plentifully at hand. True or not, however, the fact remains that Evelyn Nesbit Thaw holds her husband in mortal terror. It has not been a week since that she expressed the conviction with blanched face and trembling hand, that if he was set at liberty he would kill her before 24 hours had passed. His counsel have expressed a similar conviction. His family, even, she fears.

It has been said that there has been more resistance on the part of Mrs. Thaw to the plans to separate her from her husband. But she has met him, and they fearment to meet, and so the agreement has been reached, and it is an ever-ready certainty that if the time ever comes when Harry Thaw may enter New York a free man Evelyn Nesbit Thaw will be absolutely out of his life.

The Dining Room and Hall

When we come to the dining room something a little different from the other rooms is appropriate and for this purpose we have papers in imitation of woven tapestry which are excellent. These tapestry effects are in verdure or forest patterns, and in a number of other different styles which are all in keeping. Wall papers are also made in imitation of burlap weave, and the wreath and torch of the French empire period make a striking pattern. These dining room papers can be hung in various ways, but the upper-third treatment, as it is called, is best where it is possible. This includes a plate-rail or shelf about one-third of the way down from the ceiling on which can be displayed old plates, bits of pottery and bric-a-brac, etc. The hall can be treated much like the dining room. Special patterns, more or less stately and dignified in their effect, are made on purpose for the hall or vestibule, while various fabric effects are in good taste.

Yours for correct wall coverings.

FEMININE TOPICS

"THE MERRY WIDOW." If you haven't already caught the "Merry Widow" you will very soon. The "Merry Widow" has had such an influence on the spring styles that the day is not far distant when you can go into a store and order all your raiment of this brand. Take the millinery, for instance—

the "Merry Widow" hats shown in the millinery departments are charming, alluring, fascinating, irresistible! And of such enormous proportions! Umbrellas aren't in it with them in size.

Advance fashion letters say many small hats will be worn. About the only hats shown now that might be described as small have such immense crowns that the effect is the same as that of a big hat.

Looking through their fine line of bath room fixtures at The Fair today I was surprised at the many convenient things you can get ranging from 10 cents up. They are necessities no one should do without.

Complimenting a well dressed woman on the effect of her very piquant toque, she confided to me that it was entirely due to what she euphemistically described as the "arrangement of her hair"; it certainly left nothing to be desired.

The general trend of hair dressing of the hour is toward full and degage effects, obtained, it may be noted, by large negligently waved rolls of hair brought sometimes quite unbecomingly low over the brows—a distinct reaction against the almost "finkin" effect of the coiffure of a while back. In the simpler styles the hair is waived over a full round frame, and assumed into a "chignon" of rather large curls at the back, with a certain careless picturesque effect. All stiffness and rigidity is barred from the styles of the moment, and the choice of hair ornaments is practically unlimited.

No excuse for every woman not to have plenty of "neck fixings" now with that big assortment of pretty collars at Long's sale at prices so low you can't afford to be without them.

Women representing nearly all the progressive nations of the world will assemble in Washington to attend the international congress on the welfare of the child, under the auspices of the National Mothers' congress. Subjects bearing upon the great work of the congress will be discussed.

"Two agates for a glassy," is a very often heard challenge as you pass a group of small boys which suggests that the marble season is here and with it comes the usual hard wear on the stockings. One day often wears an ordinary stocking through at the knees. If you buy Cadet Stockings for the boy you need not caution him as to their care. They are proof against the marble season's mishaps. It is evidence of a lack of breeding for a girl to sign herself "Miss Brown" or for a married woman to sign "Mrs. George Smith." Nobody has ever been named Miss or Misses so far as we can ascertain.

"The Purty" is surely finding Newark people appreciative of their good things for I see they have greatly increased their seating capacity as well as having quicker service. They also tell me they are ready to sell ice cream in pint and quart buckets.

Keep the short sleeve. Because it is comfortable; it is neat; it saves laundry bills; it makes more beautiful arms because they are better cared for. It is cooler in summer, and in winter the flesh becomes hardened to its use and no disadvantage is suffered.

When searching for foot comfort call at Linehan's. You want Armstrong shoes and that is what they sell. They don't have to be broken in—fit from the start. The inner sole is as smooth as glass, with no waxy tacks or thread to hurt the foot—and the whole shoe is flexible, conforming to the shape of the foot.

The mother of naughty children can hardly expect much attention socially, for there is always a fear that she may bring one of the spoiled darlings with her when she comes to make an informal visit.

No woman should miss reading those wall paper talks that come out each day at top of page 2.

I am sure that you will be interested to know that many of the summer lingerie hats are made of the flowered organdies and lawns—a new and effective use for them—combined with the plain white muslins and laces. Here is an idea for the girls who have a pretty lingerie hat left over from last year; you can easily remodel it with touches of this kind, using your own taste and individuality.

The correct way to wear a veil nowadays is to pin it down neat and trim in the back. The long, dangly, stringy veil fluttering about here and there, over one ear and off the other, is not in keeping with the present idea of neat, trim, smart dressing. Fussy details of dress always detract.

PARTELLO STOCK CO.

The Partello Stock company which has been pleasing Audubon patrons all week off the sterling drama of Western life, "The Way of the West" for Thursday night. It gives Miss Kennedy an excellent opportunity to display her talent having been born and reared in the west, and understanding the traits of Western people and in the role of Leila Watson, the "cowboy girl," she gives it a fitting portrayal. Her support all have part that show up to advantage. "The Way of the West" is a play for the ladies as well as for men and boys. No startling gun play such as seen in the average western drama of today, but good wholesome comedy, also fitting stage settings that give it a bright Western atmosphere. New specialties and moving pictures.

OUR NEW MINISTER.

Pretty good testimony of the high favor in which a play is held by the community when enquiries as to the date of its re-engagement begin to find their way to a box office months before the play is due. Denman Thompson and Geo. W. Ryer's comedy, "Our New Minister," is just now enjoying this good fortune locally. Since the announcement of the contemplated return of the piece got into print, every day brings a question mark as to the date to the local management. Have original cast and scenery."

The local stage workers promise to set the stage from start to finish before the view of the audience. That is, upon entering the theater the curtain will be up, and nothing but the brick wall at the back of the bare stage will be seen. At promptly 5 o'clock the boys will begin to make the getting for the first act, leaving the curtain up. This will give the public an opportunity to see how the boys behind the curtain deceive the eye and carry the minds of the audience to some distant land of mystery, beauty or bugaboo.

This setting of the stage is done once a year by the local boys before the eyes of the public, and will serve to show why they have the record of being one of the best stage crews in many states.

The same slides, lecture and service that will be used at the 7:30 service Friday evenings, will be given for the children in the parish house at 4:45 in the afternoon. This is for children only and is open to all children who wish to come. There will be no charge of any kind. Please remember that adults are not asked to this service. They are most cordially invited to the same lecture and service to be given at 7:30 in the evening. This series will begin on Friday of this week and the home life, customs, games of the Roman people, and the persecutions of the Christians under Nero will be illustrated and explained. Please do not come in if you are late. The time for beginning at 4:45 sharp.

OUT IN THE OLD BACK YARD.

Out in the old back yard one day the children gathered to romp and play. The grass was worn away in spots, made by the feet of these little tots. The tumble-down fence at sides and back, had stood for years, and with age was black, and I thought to make the place more bright, so I bought me a can of Spartan White.

The change that it wrought in that old board fence, the neighbors all claim was just immense; the children, who were delighted too, wanted Fido's house all painted new, and when I had finished and looked around, you can't imagine the work I found—where a little can of Spartan Lead could be used—or Aurora Paint instead. Seldom Wear Out

Dr. Miles' Anti-Pain Pills relieve pain—not only once, but as many times as it is necessary to take them. Many persons who suffer from chronic ailments find in them a source of great relief from the suffering which they would otherwise be compelled to endure. Their soothing influence upon the nerves strengthen rather than weaken them. For this reason they seldom lose their effectiveness.

"I am 62 years old and have suffered for 42 years from nervous troubles, rheumatism and neuritis, palpitation of the heart, shortness of breath, sleeplessness, and pain around the heart. The Dr. Miles Anti-Pain Pills have been a blessing to me. I don't know what I should do without them, and they are the only remedy I have ever used that either did not wear out in less time than I have been using them, or else the injurious results were such that I would be obliged to cease their use."

IN KEEPING MONEY ABOUT THE HOUSE

or upon your person there is always an element of risk. Loss by fire is a frequent occurrence; the newspapers contain daily reports of losses by theft.

Moreover, the cash in hand is in itself a constant temptation to spend—one so easily forgotten how hard it was to earn and how much it would ultimately signify if added to the family savings.

It is a fact that if the average man could recover all, or even half of the money that he would admit of having spent foolishly, he would, in that sum alone, possess a modest fortune—to say nothing of the interest it would have earned had it been steadily deposited in this bank.

Stuck in the Mud.
A man, whose name was not learned, driving a team of horses hitched to a wagon loaded, with refuse, got stuck in a hole on South Fourth street, near Harrison, this morning, and nearly the entire forenoon was spent in extricating the wagon and horses. The hole in the street, a result of some repair work which has been going on, had been filled with a thin layer of dirt and gravel. As the heavy wagon passed across the opening it sank to the hubs in the soft dirt. Two teams were put to work and finally succeeded in getting the outfit in the clear.

IN LOVING REMEMBRANCE
Of our dear mother, Ernestine Zahn, who died March 12, 1906.
Just two sad years, since you, dear mother, passed away.
And tho' your sweet face no more we see,
Our thoughts, loved one, are ever of thee;
We miss you more than tongue can tell
And trust that all with you is well.
Our home is broken, our hearts are sad—
Could you have stayed we'd been so glad.
But God in His wisdom took you away
And in Heaven we'll meet you some sweet day.
To your grave we go and let fall a tear,
Saying, "She is not dead, but sleeping here."
But still we must not murmur,
Our loss was but His gain,
And now she dwells with Jesus, free from every care and pain.

A SECRET FOR WOMEN.

Madame Moneaux, deceased beauty specialist, of New York, long possessed the secret of all secrets pertaining to feminine charm. And what is this great secret, so much desired by women? The secret that has made a vast fortune for the madam's heirs, and that brought her all the famous actresses and society leaders for patrons?

"What, don't you know?"

It is a simple, but sure method of developing the bust, arms and neck of women, who, through defect of nutrition and circulation, are humiliated by undeveloped arms, neck and bust. The treatment consists of applying a powerful but harmless nerve stimulant to the cells of the skin, to be absorbed and utilized as nourishment to the flesh cells and tissues. Beautiful changes are wrought, the deformed women are developed into charming persons, with well rounded arms and neck and full normal bust. The treatment is simple and of exquisite taste and propriety, so that it can be used by actresses and society leaders. Any leading druggist will supply the ingredients to mix at home, and as they are used for various prescriptions, they are not sold separately.

"Two ounces glycerine," "three ounces Rose Water," and "one ounce Tincture of Cadomene," and five cents worth of borax. Take home, mix with the glycerine with Tincture of Cadomene, shake and let stand two hours; then add a teaspoonful of water and the rose water. Shake well and apply to the neck, arms and bust, rubbing gently, then wash thoroughly with hot water and soap and dry thoroughly. Apply morning and night regularly for several weeks and the most beautiful development will begin to reward the efforts. It is believed by experts to be the most necessary and effective prescription ever conceived.

This is worth keeping, if not for yourself, for some dear friend who needs it.

OBITUARY

SAMUEL GARRISON.
Samuel Garrison, one of the best known of Licking county's older residents, died suddenly at his home in Linnville, at about 8:30 Wednesday morning. Death is said to have been due to heart failure, resulting from the general weakness of age, as he was past 78 years.

Mr. Garrison, who has been unusually active for one of his years, was engaged in lifting some wood about his yard when he fell in a faint. His wife rushed to him and assisted him into the house where he was placed in a chair. A second sinking spell followed and the aged man was laid on his bed where he passed away within a very few minutes. Beside the aged widow, there remain four children, David at home, William of Amsterdam, Mrs. Charles Walker of St. Louisville, and Mrs. Cleveland Blake, residing near Buckeye Lake.

The deceased was a member of the Linnville Christian Union church, where the funeral will be held on Friday.

MARCUS GOLDSBERG FUNERAL.

HOUSE

(Continued from Page 1.)

pointment from a list of the three applicants receiving the highest grades. Removals shall be for cause and on hearing.

In the debate on the bill, which consumed four hours, the attack was led by Mr. Frizell of Dayton, who said the measure provided an autocratic, unscientific and unsuccessful form of government. It meant the elective boss who did as he pleased about law enforcement.

Under the Paine bill the board of control was without independence, the members removable at the whim of the mayor. The present board form, was bad, and the Paine bill was worse.

Mr. Paine said the bill provided a system no more autocratic than the federal government at Washington. The English common council form had failed in this country, and the only form which had been successful was the federal form of separation of the executive and judicial branches of government. The only question before the house was whether the administrative officers should be elective or appointive. He referred to "Bieser or Bowser" as the motive back of Frizell and Chamberlains' opposition. Representative Lersch of Lorain said he didn't know or care whether Tom Johnson was for or against the bill; it was a good bill and suited the smaller cities.

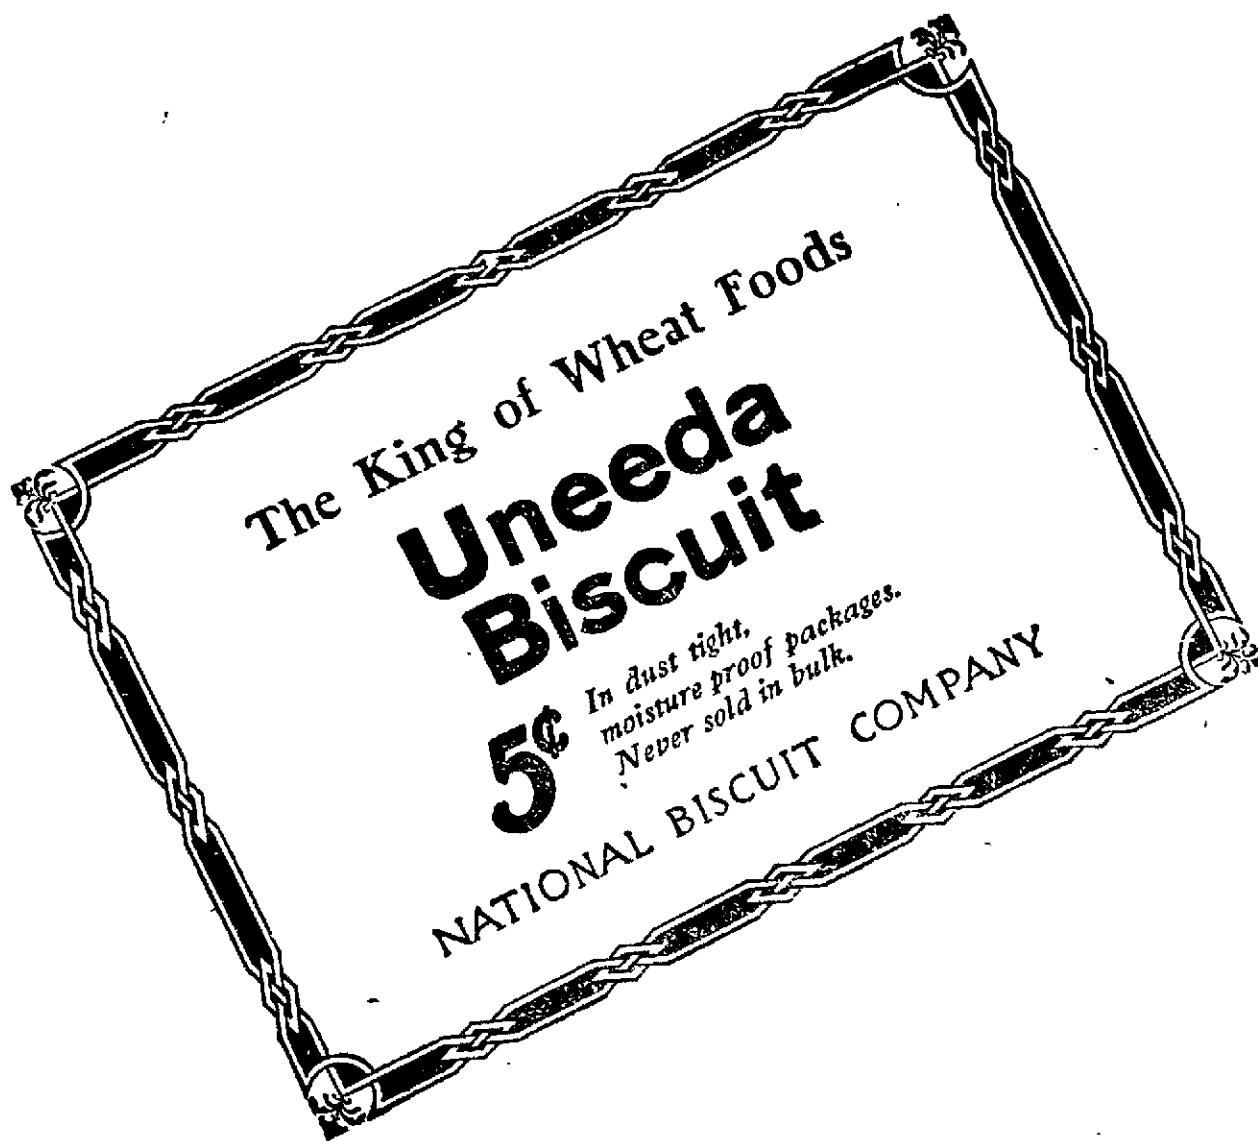

Mr. Chamberlain declared that there was rank corruption in the Toledo government, where the mayor allowed vices to flourish and did so in return for political patronage. Civil service in Ohio cities was a farce, as it did not deliver the goods.

Edwin Vertz, the Democratic leader paid a tribute to Louis Paine, the author of the bill. He said Paine represented a city absolutely controlled by questionable means by a man who could make and unmake the member from Toledo, yet that member had reported from the cities committee "bill after bill which was for the welfare of the people, and had done so regardless of the effect on his future Toledo politics, and he was one of the big men of the general assembly."

A SUBWAY FOR SOUTH NEWARK

A Feasible Improvement Greatly Needed for Many Years is Now Receiving Timely Agitation and It is Highly Deserving of Favorable Consideration by City Authorities.

The citizens of South Newark are rightly and justly becoming interested in a project for the promotion and welfare of that portion of our city. For years there have been occasional allusions to a subway or viaduct under or over the railroad tracks that practically separate that part of the city from the business center. But for all these years it has been a mere sentiment in that section, not assuming such practical shape as to formulate anything in the way of an organized movement.

The Advocate is glad to note, however, that this sentiment so long dormant in the South End, is assuming practical form and that an organized movement on the part of the people of that section is now in prospect, with the view of having a viaduct or subway constructed that will greatly remove the present difficulty in crossing the railroad tracks.

At present the popular notion is that a subway under Fourth street will be the most practical and efficient in accommodating the people of the South End.

Fourth street is the middle avenue connecting the South End with the city's business center, and a subway under it would accommodate it is claimed, the larger number of people.

A subway under Fourth street would practically put the whole South End in pretty good and safe connection with the center and other portions of the city. And in view of the present unspeakable difficulties that the people have in crossing the railroad and the dangers that are constantly encountered, it is high time that something should be done. It will be for the benefit of the people of the entire city as well as the South End.

At present, in cases of fire in the

South End, the fire department is compelled to rush across the railroad tracks at great risk of the lives of the firemen, and if railroad trains happen to be standing upon the tracks at the time of an alarm there is certain to be some delay before the location of the fire can be reached.

This great difficulty could be greatly remedied were a subway to be constructed under Fourth street, for it would enable the Central fire department to reach the scene with both facility and safety.

The Advocate is informed that the people of the South End are becoming so greatly interested in this project that a public meeting is talked of being called at an early day for the purpose of discussing the matter and formulating plans for having action taken by the city authorities. Such an improvement at one street may not be ample for the whole South End, but Fourth street is the most central in its location and it will be a starter if others are needed later on. The South End has never been the recipient of special favors from the city, and is highly deserving of this much needed improvement.

The Advocate will be glad to render all the assistance it can for such a project. The South End not only deserves this improvement from a local interest standpoint, but such a project would greatly benefit the entire city.

ZANESVILLE GIRL

Weds in California, Where She Had Gone to Visit Relatives—Telegraphs Fact to Mother.

Zanesville, O., March 11—Mrs. Nora A. Williams of 513 Lee street, received a telegram Tuesday evening conveying the news of the wedding of her daughter, Miss Nellie H. Williams, to Mr. Edward West at Riverside, Cal., at 3 o'clock Tuesday afternoon.

The former Miss Williams went to California six months ago and has been the guest of relatives in the Golden state. Mr. West's home is in Los Angeles, where he met his future bride two years ago. The happy couple will reside in San Bernardino, Cal.

NEW ATHA

Will Soon Open at Zanesville—Manager Baum of This City Will Be Manager.

Zanesville, O., March 11—Gas Sun of Springfield, senior partner of the firm of Sun & Murray, the leading exploiters of vaudeville in this state, arrived in Zanesville today to conclude arrangements for the opening of the new vaudeville house in the Atha building at Market and Fourth streets. The event will occur March 20. It has been said that the new theater is in a very desirable position, because of the location of the gas company's office. Patrons may use their "change" to gain admission to the matinees.

The Atha is the theater of which Manager Baum of this city, will take charge, leaving for his new duties next week.

MUSICAL CIRCLES

Will Greatly Miss Prof. and Mrs. Appy Who Will Move to New York State.

Prof. and Mrs. E. F. Appy who have been instructors of music here for a number of years past have sold their conservatory to Mr. and Mrs. Orley H. See and will leave in the near future for New York state, with a view of benefitting the health of Mr. Appy. Their influence in musical circles will be greatly missed as they were instructors of a high standard, but their work will be ably carried on by Mr. and Mrs. See, the former being a violinist of note, having completed a thorough musical course, and Mrs. See has gained an enviable reputation as a pianist. Besides being artists both are able instructors.

YOUNG WOMEN FOUND DEAD

ONE HAD ESCAPED FROM SANITARIUM AND WAS BEING CARED FOR BY FRIEND.

Police Believe It Suicide Pact But It May Have Been Murder and Spree.

Boston, March 11.—Two young women were found shot to death in bed this morning at the fashionable Laurens school, on the Audubon road. One of them, Miss Wead, escaped last night from a sanitarium in Newton and fled to the school where her friend, Miss Hardy, agreed to care for her during the night. This morning the school nurse heard two shots in the room, and when the door was burst open both women were found dead. The police theory is a suicide pact, but there is another story that one of the women killed her friend and then shot herself.

IN HALF

Coal Bills Will be Cut by Baltimore Woman's Discovery, Who Makes It Public.

Baltimore, Md., March 11.—Mrs. Jesse Tyson, a leader of Baltimore society, has been experimenting during the last month with chemically-treated coal ashes as fuel, and has announced that thus far the experiment had proved perfectly satisfactory. Her discovery is to be used for the benefit of the poor.

"The formula for preparing the ashes," said Mrs. Tyson, "is as follows: Take two ounces of oxalic acid and one pound of rock salt and dissolve thoroughly in one gallon of water. When the acid and salt have dissolved the solution should be sprinkled on the ashes until the ashes become moist. Then this mixture should be spread over the body of the fire, say from one and a half to two inches thick. It will cut the coal bill in half and give heat equal to the best fuel."

The janitor was held blameless and no suggestion was made for prosecutions.

DRUNKENNESS A CURABLE DISEASE

Eminent Physicians and Scientific Men Agree That It Should be Treated as Such.

Drunkenness is a progressive disease; the moderate drinker is not satisfied with two or three drinks a day, the craving for more and more becomes irresistible as the disease advances; the result is Chronic Alcoholism.

The treatment used successfully by thousands right in their own homes is Orin. It is a scientific cure for Drunkenness and has given such universal satisfaction that it is sold under a positive guarantee to effect a cure or your money will be refunded. This guarantee is given in good faith and is carried out to the letter. Orin is not a new remedy; it has been sold by the leading druggists in every city for years. It has lifted tens of thousands from the depths to worthy manhood and has the hearty endorsement of grateful men and women in every state in the Union.

Orin No. 1 is the secret remedy; Orin No. 2 is for those willing to take the treatment. Either form costs \$1.00. The guarantee is the same in either case. Write to The Orin Co., Washington, D. C., for free treatise on Drunkenness, mailed in plain sealed envelope. Orin will be mailed sealed on receipt of price. Sold by the leading druggists in every town and city, and in this city by Frank D. Hall.

TOWNSHIPS

ONLY ARE NAMED IN THE ANDERSON SUNDAY BASEBALL BILL.

BUT MAY BE AMENDED

Cities and Villages May be Included in Local Option for the National Game.

Into the legislative hopper of the House of Representatives Tuesday Mr. Anderson of Maine introduced his bill for local option on the Sunday baseball question. As the bill went into the legislative grist mill it includes only townships, but it is said that, if the committee having it in charge, so wills, cities will be included as well as villages.

Representative Anderson said he would not be adverse to such an amendment.

The bill provides that when 25 per cent of the qualified voters of any township petition the township trustees to hold such an election, the township trustees shall order the election to be held within 30 days after the filing of the petition. The question is to be put up squarely to the voters.

On account of the late introduction of the measure it will not be reached till late in April, unless it is reported out of committee at an early date and put on the calendar as a special order. It will hardly be thought of sufficient importance, however, for a special order, unless it should happen to come out of the committee amended to include cities and villages.

As it is framed it will be more of a benefit to amateurs than to any other class of players, provided, always that they carry the election. The bill will probably be opposed by the few who are not in favor of Sunday baseball as an affirmative vote would be received in about every municipality and in most of the townships.

HOPKINS

Ties Another Big Pitcher to Newark's Staff—Old Kansas Leaguer.

The big men look good to Secretary Hopkins, and Tuesday he tied another six footer to the Molder staff. This man is a pitcher, Frank Moore by name, and comes from Tuscawawas county. He is 6 feet 3 inches in height and weighs 208 pounds.

Last year he played with Topeka, and later with Coffeyville, Kan., of the O. K. league. His record was good and he will get a thorough try out this spring. Moore played here several times years ago, with the Massillon and Coshocton teams during the life of the old Protected association.

Moore said he had heard Newark well spoken of by different players, and wanted to land here if possible, so he came to town Tuesday and signed up.

THE SCHEDULE

The Ohio State league schedule appears to be a most admirable arrangement of dates. President Quinn put in much time studying it out and seems to have done a good job. Each team will visit each other team five times and will not stay longer than three games in one city. This constant changing will please the fans and it does not add materially to the mileage. In fact the jumps are all short. Lima, Newark and Lancaster each get 11 Sunday dates and Springfield, Mansfield and Marion get 10. The mileage is 18,347 miles. This is not twice as much as the Columbus American association team alone has. This mileage in the Ohio State league is pro rated. Each club will pay the same sum for mileage. The complete schedule is printed elsewhere.—Ohio Sun.

WILMOT SIGNS.

After taking his contract under consideration two weeks, Al Wilmot, of last season's pitching staff, returned the contract signed to the Marion directors Sunday. Wilmot says he is in good form and expects to make an excellent showing the coming season.

to make an excellent showing the coming season.

SNODGRASS SIGNS.

Walter Snodgrass, ex-manager and player of the old Idlewild team, has signed with Reddy Mack's Fairmount team of the West-Penn league. Snodgrass has lots of friends in Newark, but he was compelled to go when the game got too fast for him.

FOUR FOR ONE

A letter received from C. M. O'Day, manager of the local baseball team, states that he has succeeded in landing a fast player but was compelled to give four of Marion's youngsters for the new man. O'Day states that he will furnish Porter Hickman, the first baseman signed by him, and that the local club officials will have to furnish the other three recruits. O'Day does not state who the new man is or what position he plays.—Marion Mirror.

NOCK'S BENEFIT

For the benefit of the baseball club a heavyweight prize fight will be held in New Castle Monday evening March 16. Tony Ross, a New Castle boxer, who recently bested Mike Schreck of Cincinnati, will meet Jim Jefford in a 12 round bout. They will fight for a \$750 purse and side bet. Kid Kilbain of Cleveland and Young Zahnizer of New Castle, will go ten rounds for a preliminary battle.

LEAGUE'S MILEAGE

From the time the teams in the Ohio State league start for their opening game of the season, they will have traveled a total of 18,347 miles. The Marion team's mileage is 2657 miles; Lima's, 2931; Mansfield's, 3128; Newark's, 2880; Lancaster's, 3488, and Springfield's 3263. As the mileage is to be equally divided, each team will have to settle for 3057 5-8 miles.

WHERE WAS NOAH?

Pitcher Noah of last season's Sharon team, has placed himself in an unenviable light by signing an Omaha contract after he had been drafted by the Columbus club. Noah's contract with the Columbus club never reached him. According to baseball law he must receive a contract by March 1 or he becomes a free agent. But all that is necessary for the club claiming his services to do is to mail him a contract to his last known address. That was New Castle, Pa. Noah was away somewhere and the contract did not reach him, so he pretended to be free to sign with Omaha, and did so.

The Columbus club will immediately take the matter up with Secretary Farrell of the National association, and have the player ordered to report to Columbus.

BOWLER ROLLS PERFECT SCORE

Phil Worman, chief clerk to Mayor Burkhardt of Dayton, O., Saturday broke all local bowling records with a perfect score of 300 pins. Samuel Karpf, for 12 years secretary of the American Bowling Congress, was one of the many who witnessed Worman's phenomenal performance. Worman is a regular member of the Walnut Hill club, which is a member of the Dayton Bowling Association of the American Bowling Congress.

DOPE FOR FANS

Catcher "Tacks" Piper has given up his membership in the "Lancaster Holdout club" and now wants to come into the fold, but according to a report from Lancaster, Piper will have to travel to Lancaster before he receives another contract.

Lancaster is the only club in the Ohio State league which has not selected a pilot for the coming season, but it is expected that an announcement will be made in the near future that George Fox will again lead the Lanks next season.

Manager O'Day of the Marion, Ohio State league team, says he is not worrying over the failure of reserve players of the old O. P. league to sign their contracts. O'Day asserts he can select a fast team from the players he has already signed. J. C. Firststone an Indianapolis shortstop has been signed.

The Cubs are to be the gaudiest things on the diamond this season. The shirt of each Cub is to be adorned with a letter "C" large enough to be seen a mile off. Inside of this there will be worn a Teddy bear. On the sleeves of the coats there will be other Teddy bears that will cover the entire upper arm.

Manager Ransick of Springfield, has signed no new players during the past week. No more youngsters will be added to the list. The club owner is now looking for experienced men and he has his lines out for five or six.

Hogan has hopes of landing a number of players from Coldwater when the weeding out season comes. Hogan has hopes of landing a number of players from Coldwater when the weeding out season comes. Hogan has hopes of landing a number of players from Coldwater when the weeding out season comes.

man and Thomas are expected from the Senators.

Interstate league officials now claim that their organization will be composed of Erie, Oil City, Franklin, Warren, Olean and Bradford.

Rube Sellers and Aaron Kerr are dissatisfied with the contracts offered them by the Sharon management and refuse to sign.

Pitcher Malarkey of last year's Sharon O. P. team is making good with the New York Nationals. In a practice game in the south he won 1 to 1, and showed speed all the way through.

On the eve of departing for the southern training camp Elmer Flick affixed his name to a Cleveland club contract for the coming season, and the clover and hard-hitting right fielder is now ready to help the Naps in landing up in the front ranks.

Kid Hagen, the New Castle third baseman and Pitcher Harry Camnitz have both refused to sign contracts for the coming season. Both are valuable men and a compromise will probably be made. The salary limit trouble has reached the O. P. as well as the Ohio State.

Manager Clymer of the Senators, remarks that he bets Bobby Quinn is the busiest man in Ohio and adds this little boost: "Quinn is a great fellow to look after details, and he is so methodical that everything will receive his attention and he does everything in such an enthusiastic way that he will carry all along with him."

PEARCE A BINGLER.

The Cincinnati Reds have arrived at St. Augustine, Fla., their training ground, and in speaking of the team Jack Ryder, sporting editor of the Cincinnati Enquirer, says of Bunny Pearce:

Ed Curry tossed them over while he was in the box, but he put in a good day's work in the outfield, and did a lot of running besides. Two of the recruits made a very favorable impression on Manager Ganzel at the bat. Both Hulswitt and Pearce looked the part and swung every ball right on the nose. Big Bunny appears to be a natural batter. He is a tall, rangy fellow, and puts a lot of steam into his swing. Hulswitt is not a terrific batter, but he puts a great deal of determination into his work.

HELLER TO MARRY.

Cupid made another hit and will score a run in the near future when Fred Heller, former outfielder for the Lancaster team, marries Mrs. Nellie Kemp of Zanesville. The score will be made on March 18 at Columbus. Heller is out of the game for good, and has a good position with the Summit Coal company of Columbus. He was well liked by Newark fans, who will be glad to hear of his good fortune.

BASKET BALL

Western Reserve vs. Denison at Granville Tomorrow Night.

Much enthusiasm is being shown in Granville over the basket ball game tomorrow night with Western Reserve University of Cleveland. The Denison boys have not forgotten the defeat in football given them by Reserve, and a hard game is anticipated. Both teams have been playing good games and one of the closest games of the season is expected. Ample seating room has been provided for any Newark people who wish to see the game. The game will be called at 8 o'clock. Admission, including reserved seat, 35c.

HENRY F. LUCAS

LOCAL WEATHER PROGNOSTICATOR SELDOM FAILS IN HIS PREDICTIONS.

Has Given Forecast Accurately for Past Several Months—Also is Quick With Figures.

Our well known colored friend, Henry F. Lucas, is one of the most popular and deserving men of his race in Newark, where he was born and brought up, and where he has lived all his life. He is the fourth child of the late Henry F. Lucas, Sr., an old time leading barber of this city. In his early youth Henry attended school in the little old brick school house on Hoover street, where the colored children formerly gained knowledge under Mrs. Gibson Phelps, and later under Mr. D. M. Guy, who is now one of Newark's letter carriers.

HENRY LUCAS.

When Henry attended school over thirty-five years ago he did not take to books very kindly, his ambition being to get out in the world and work. When a small boy he had the reputation of being one of the best swimmers in the city, and the "swimmin' hole" back of the school house in little old Log Pond Run, was his favorite swimming place. It used to be said that Henry could stay under the water fully three minutes, and it was nothing for him to take after a fish, swim it down and capture it. Henry Lucas for many years has been noted for his industry and economy and has accumulated quite a large fortune washing windows of the business houses and doing janitor work about the city. The only failure about Henry is that he is still an old bachelor, but it is to be hoped that leap year will remedy this defect in his constitutional makeup.

Henry's chief characteristic, however, is his ability as a weather prophet. As a great weather prognosticator he is a close rival of the celebrated Mr. Hicks in this respect. Ever since he was a small boy Henry has been gifted with power of predicting accurately the weather we will have tomorrow, next week, or even for a month, and so true have his predictions turned out that picnic parties depend on his prophecies to a large extent. During the month of January he predicted the weather for every day of the month, and only missed it once, and on that day his prediction was partly verified. The same can be said of the month of February, for he predicted the exact number of rains and snow storms that occurred.

Another characteristic of Henry's is his ability to juggle figures in his head. It is the hardest work in the world for him to add up a column of figures on paper, but call the numbers out to him, and he almost immediately comes back at you with the correct answer.

HUNDREDS OF PEOPLE HERE NOW CURED OF INDIGESTION

The Following Tells How One 22 Grain Triangle of Diapiesin Will Digest 3,000 Grains of Food and Cure Stomach Misery in Five Minutes.

Some people think they have indigestion, others Catarrh of the Stomach, others Nervousness, Cancer or Dyspepsia, etc. Call it this if you will, but the real name for your trouble is Fermentation of what you eat, with only partial digestion. Everything you eat turns to either Acid, Stomach gas or Stomach poison, which weakens the digestive organs, causing a lack of gastric juice. Your food sours, is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, burning sensation, a feeling of vomiting, heartburn, water brash and tenderness in the pit of the stomach, slimy tongue, bad taste in the mouth, constipation, nervous, belching of gas, dizziness, sick headaches, intestinal griping, mental depression and many other common symptoms.

You can cure all this by not eating, by not putting any food in your stomach to ferment; but how about the nourishment needed to sustain your

INNOVATION

IN WELDING FRACTURED LOCOMOTIVE FRAMES BEING TRIED AT B. & O. SHOPS.

Interesting Description of Process Furnished by Foreman Kane of the Blacksmith Shop.

The B. & O. railroad company at its shops in this city are trying an innovation in the way of welding fractured locomotive frames without the necessity of dismantling the machine to do the necessary work. A few days ago locomotives 1922 and 981 were operated on, using the new process, and from the appearance of the now exposed weld it would seem as if the new method will prove a success.

As it costs much time and money to dismantle an engine preparatory to making a weld by the old way, the advantages, according to the new method is used and if successful, are readily seen.

The preparing and the making of the weld by the new process is a very interesting operation, and was explained to the Advocate by Mr. J. P. Kane, the genial foreman of the company's blacksmith shop. Mr. Kane was all the time, while explaining, busy preparing engine 2270 for a weld which he hopes to have completed today. The method of making the weld is about as follows:

A small strip of metal is cut away at the point of the fracture, just enough to allow a sufficient quantity of new metal to flow in and cohere, then the frame is spread open at the point of fracture about three-sixteenths of an inch to allow for contraction in the cooling metal, and the parts of the frame are held rigidly there by means of screws. Paraffine and beeswax composition is then worked in the open part between the ends of the frame to be welded; the composition being also built out about an inch completely around the

HUNGRY AS A BEAR AND CAN'T EAT

If, When Mealtime Comes, You Suffer From a Yes-Not Kind of Hunger, You're a Dyspeptic.

How to Cure All Stomach Troubles.

A good many people get mad when you tell them they've got dyspepsia, but way down deep in their stomachs they know they've got it.

"I'd love to eat it, but I can't," is one kind of dyspepsia.

"I hate to think of it," is another kind. There are thousands of people today who hate their meals, and they love them at the same time. They haven't that fine empty-hungry eat-everything-in-sight kind of feeling which goes with every good strong healthy stomach. That's because they have dyspepsia. And then there are others whose mouths don't water at meal time or at any other time. They sit at the table and go through the motions, only because it's time to eat. These people, too, are dyspeptics.

Every possible kind of stomach trouble can be cured by taking something which will just take right hold of all the food in your stomach and digest it alone without the help of the stomach, and let the stomach take a rest.

Stuart's Dyspepsia Tablets do this very thing. They are composed of the best digestive known to science, and are absolutely safe. One ingredient alone of one of these tablets will digest 3,000 grains of food! These tablets do exactly the work that a good strong healthy stomach does.

Stuart's Dyspepsia Tablets cure all cases of dyspepsia, indigestion, burning or irritation, loss of appetite, bloating, brash, belching, aversion to food, fermentation and gas on the stomach.

Stuart's Dyspepsia Tablets will make you feel "good" before and after each meal, and make your stomach strong and healthy again. They will make you happy.

Send us your name and address to-day and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 159 Stuart Bldg., Marshall, Mich.

Stuart's Dyspepsia Tablets are sold at every drug store for 50¢ a box.

GRANVILLE

Granville, O., March 11.—The Cambridge Jettisonian says: Rev. A. Ramsey of the St. John's Episcopal church, has decided to accept the call recently extended him by the St. Luke's Episcopal church of Granville, and will close his work in Cambridge April 1. Rev. Mr. Ramsey came to this charge during the month of July, 1904. During this time over \$600 in improvements have been put on the church and paid for. Twenty accessions to the church membership have been made, the "Daughters of the Church" have been organized and in nine months' time raised \$229 for church purposes. Mr. Ramsey has gained a lasting place in the esteem and affection of his co-workers in Cambridge, especially in the Ministerial Association, and all will regret to lose him. Granville, the seat of his new charge, is a flourishing college town of 1200 inhabitants. It is the seat of Denison university, is situated near Newark, and a very desirable home. The opportunities for one of the ability of Mr. Ramsey could not be better than in this educational center, and his work there will be of great value to the many students of his denomination who attend the schools there.

The board of education held an adjourned meeting on Monday with Members Slack, Williams, Geach and La Ferre present, President La Ferre in the chair. Owing to the fact that the fifth and sixth grades are overcrowded, and that but one teacher has been supplied, it was deemed necessary to provide another teacher, and Miss Edna Thornton was elected teacher of the sixth grade. The winter term of school will close on Wednesday evening, March 25, for the spring vacation. The schools will reconvene on March 13.

The Advocate reporter in conversation with one of the members of the board regarding the provisions that have been made for the safety of the pupils attending the public schools, in case of fire, was informed that the scholars are safely guarded from a fire disaster. He said the building consisted of two stories, the rooms of which were large and were never overcrowded, that the stairway was wide and that there were three exits, one door on the north, one on the south and one on the west, all opening from the center of the building, and although there were no fire escapes to the building, the pupils had the advantage of these three entrances and exits to the building. The building was heated by four furnaces, built of the most modern and up-to-date pattern, and it would be almost impossible to have a fire.

Tuesday was the seventieth anniversary of the birth of Mrs. Susan Ackley, widow of the late Anson Ackley, of this place, and the event was not passed by unnoticed. The children of Mr. J. W. Ackley, the well known druggist, her grandchildren, baked and presented her with a large layer cake, on which was encrusted 70 hearts, emblematic of the number of years of Mrs. Ackley. During the day a large number of the neighbors dropped in to see her and to congratulate her, all of whom received a piece of the cake.

Mrs. J. L. Wyly and Mrs. J. M. Malone have gone to Cleveland, where they will visit for a few days.

The funeral of Harry Griffith, who died at his home on North Granger street Tuesday morning, after an illness of some time with Bright's disease of the kidneys, will take place from the home Thursday afternoon at 2 o'clock. The services will be conducted by the Rev. W. H. Miller and the interment will be made in Maple Grove cemetery.

The Rev. J. S. Cleveland, father of the two Cleveland boys, who are attending school at Denison University, who have been in charge of the Baptist church at Franklin, O. for the past several years, has accepted the pastorate of the First Baptist church of Coshocton.

Mrs. William Lawyer still continues to improve, though slowly.

Mrs. Evans, Miss Gertrude Black, and Mr. Ralph Meikle were Columbus visitors last Saturday.

Mr. Sanford Black returned home from Glenford last Wednesday.

Miss Tamzen Black of Newark spent Saturday and Sunday at her home at this place.

Master James Slocumb is on the sick list.

The condition of Mrs. Russell Kyle seems pretty critical at this time.

Mr. Dora Manson went to New Salem last Monday after the household goods belonging to her aunt, who is coming to make her home with him at this place.

Mr. and Mrs. Roland Cooperider expect to go to housekeeping this week.

Mr. and Mrs. J. R. Black spent last Wednesday in Granville at the home of the latter's parents.

The Women's Circle of this place meets at the home of Mrs. J. C. Ford next Thursday, March 12, at 2 o'clock.

Heavy Fines Imposed Upon Men Who
Assaulted Glass Workers--May
Have Paved Streets.

Utica, March 11--Arrangements were completed Monday for starting up the Central factory again. A directors' meeting was held Saturday and Manager Teague of the Utica glass plant was engaged to manage the plant. Fire was put into the tank Monday night and it is thought that the factory will be able to start up in about two weeks. This factory, like the other Utica factories, will run with men from the two-trade union.

On Tuesday morning Mayor Hall gave his reserved decision in the cases of "Dago Dick" and Jake Yottis charged with assault by Walters and Bristle. He found both the accused men guilty and fined Yottis \$200 and costs and "Dago Dick" \$100 and costs, both men to stand committed until fines are paid.

R. S. Campbell has purchased the 75-acre farm of Wm. M. Crawford, two miles south of town, consideration being \$2715.

There will be a general district Sunday school rally held in the Presbyterian church Wednesday, March 11, at 2 and 7 p. m. Some good speaking and music is promised.

A literary society was organized at the Lake Hill school house last Friday night. A meeting of the society will be held in the school house this coming Friday night at which

there will be a debate, good music and other interesting features.

A very enjoyable occasion was the dance given in Sperry hall last Thursday evening by Mr. and Mrs. Robert Siles and Mr. and Mrs. Robert Tyler in honor of Mrs. Benjamin Carroll. About seventy persons were present. Card tables were provided for those who did not dance. Refreshments were served. The music rendered by an out of town pianist and local trap drum artist, was excellent.

There is considerable talk of paving Main street. At present it is understood that four of the councilmen are in favor and the other two against the proposition. The two who oppose it are the only property owners in the proposed paving district. As it takes a three-fourths vote of council to force it on the people, it is not thought that any ordinance for paving will be passed.

CIRCUIT COURT

WILL CONVEY NEXT TUESDAY
AND MAY DISPOSE OF EN-
TIRE DOCKET.

Johnstown Ex-Saloonist Fined \$200
by Mayor Strader--Other News
of Court House.

The Circuit court of Licking county meets here on Tuesday for a three weeks' session. It is likely that the entire docket will be disposed of during that time. There will be, for the first time in some years a full bench. Judge Craine of Canton, will for the first time, occupy the bench here since his appointment a few months ago, and the court will consist of Judges Taggart, Donahue and Craine. The first case assigned for trial is the case of Platt & Ross, until lately saloonkeepers at Johnstown who will make application for leave to file a petition in error to reverse the judgment of the mayor of Johnstown, by which they were convicted of the offense of not removing their stocks of liquor from the village in 30 days after the local option election which resulted in the people of the village declaring in favor of a dry town. They were each sentenced to pay a fine of \$100. The Common Pleas court refused to allow a petition in error to be filed in the case, but affirmed the judgment of the mayor.

Fined Under Search Law.

The case of the State of Ohio vs. Bernhardt Mattingly, recently a saloonkeeper of Johnstown, this county, who was charged with failing to remove his stock of liquors from the village in 30 days after the local option election, was tried in Johnstown Monday before Mayor M. N. Strader. Under a search warrant Marshal Dreschke seized 20 cases of beer, 20 gallons of whiskey and other thirst parlor equipment. The State of Ohio was represented by Kibler & Montgomery, and Smythe & Smythe represented the defendant. The chief contention of the defendant was that he was not the proprietor of the saloon, but that Dostal Bros., brewers, of Bucyrus, O., were the real proprietors. However, the mayor was satisfied from the testimony that Mattingly was the real proprietor and assessed against him a fine of \$200, the maximum provided by law. An effort will be made by the defense to have the judgment reviewed and reversed.

Admitted to Probate.

The last will and testament of Mr. C. E. Bell, deceased of McKean township, was admitted to Probate Wednesday. No appointment was made. The will leaves everything to the widow.

Appraisement Approved.

In the case of John F. Flanagan, guardian of the children of the late Gil C. Daugherty, vs. Patrick J. Flanagan, the Common Pleas court has made an order approving the appraisement of the commissioners, John J. Carroll, A. C. Davis and Geo. W. Havens. The property consisted of the residence on North Fourth street, near the Flanagan bakery, appraised at \$4,500, a house and two lots on Hoover street, appraised at \$3000, and two outlots on Eddy street. P. J. Flanagan elected to take the Fourth street property at the appraisement; the Daugherty children, through their guardian, elected to take the Hoover street property at the appraisement, and John F. Flanagan elected to take the Eddy street property at the appraisement. The court confirmed these elections and ordered the sheriff to make deeds to the respective parties. Attorneys Kibler & Montgomery conducted the proceedings.

Mead vs. Kennedy.

The case of William H. Mead Jr., an insurance man of Pataskala, vs. Frank P. Kennedy, as executor of the last will and testament of T. O. Donovan, deceased, was tried Wednesday in the Common Pleas court before Judge Seward and a jury. The action was to recover the premium on a fire policy, which plaintiff claims he issued as agent of the insurance company at the request of the decedent, who, plaintiff claimed, had the benefit of the protection of the policy. The defendant denied that the policy had ever been accepted. In the view of the court plaintiff failed to make out a case and the court ordered the jury to return a verdict in favor of the defendant. Knott, Hilliard, Flory.

Bound Over to Court.

John Cuen, a foreigner, charged with embezzling two packages of books from the Adams Express office which were consigned to John Bera, and which were valued at \$33, had his hearing before Justice Holton and was bound over to the Common Pleas court in the sum of \$100. He furnished the necessary bond.

A Complicated Case.

The case of Elizabeth Markham, wife of Mr. Richard Markham, who, for many years looked after the inhabitants of the Court House, against Sarah Holmes, a resident of England, was tried before Judge Seward Tuesday and adjourned. It was an action in partition and had reference to several valuable lots in Luray. The defendant claimed to be the entire owner of the lots, whereas the plaintiff claimed to be the owner of the undivided one-sixth of the property. The

property was originally owned by Peter and Robert Nelson, father and son, who conducted a blacksmith shop and buggy manufactory at Luray. The father died in the early '80's and the property fell to his three children, one of which was Mrs. Markham. In 1885 Mrs. Markham sold to Peter and later Peter died without any children, and the interest which he inherited from his father, after the death of his wife, it is claimed, fell to Mrs. Markham. Kibler & Montgomery represented Mrs. Markham, and F. E. Slabaugh represented Mrs. Holmes.

Return Made.

The return of the marriage of Leo Rommolo and Mari e Hoffman, in which banns were published by the Rev. Father O'Boylan, at the St. Francis de Sales church for three consecutive Sundays, has been made to the Probate court.

J. F. Swisher Appointed.

J. F. Swisher has been appointed administrator of the estate of George W. Giles, deceased, of Lima township. Bond \$1200.

Takes Testimony at Johnstown.

C. W. Montgomery of the firm of Kibler & Montgomery, was at Johnstown on Wednesday to take testimony in the case of Homer E. Lake against Jesse W. Lake, administrator. The suit is pending in the Common Pleas court and involves the settlement of a partnership which existed between the plaintiff and the defendant. The witnesses were so numerous and to avoid the expense of bringing them to Newark, the attorneys agreed to take Court Stenographer Cooper to Johnstown where all the witnesses reside and take their testimony there. Fred C. Rector, of Columbus, represented the defense.

Train Rider Fined.

Henry Walker, an employee of the Licking Glass plant at Utica, has been in the habit of making frequent trips to Newark, and in order to avoid paying his fare on the train, has come down on the bumpers. Last night he boarded a train and came to the city, and on his arrival here jumped from the train square into the arms of Detective Roberts, who jailed him. Tuesday morning he was taken before Justice Holton who fined him one dollar and the costs. Walker refused to pay and was sent to the county jail.
